National Healthcare Environment

Clare Wrobel, Director of
Payment Reform Models,
Health Care Transformation
Task Force

- Transition to value-based purchasing at the national level
 - No loss of momentum post-Obama administration
- Transition requires organizational investment and a huge cultural shift
- Accountable Care Organization (ACO) common model structure:
 - Majority of lives covered by ACOs is through commercial plans
 - ACO model seems the most prevalent for states transitioning to value-based purchasing in Medicaid
- State examples: Maryland; Tennessee; Minnesota
- Create better business case for delivery system innovation
- Align incentives to demonstrate growing value for hitting incentives
- Importance of sustainability plans

Iowa Healthcare Landscape

Nick Gerhart, Chief
Administrative Officer, FBL
Financial Group Inc.

Dr. Tom Evans, President and
CEO, Iowa Healthcare
Collaborative

- Issues can be resolved at the state-level - responsibility to build Iowa-based solutions
- Education needed for consumers
- Data needed to make informed decisions
- Challenges in the individual market
- Dynamic between the payer community and the provider community in a value-based system
- Need to redesign care and create sustainability strategies
- Need to be adaptable and foster continual learning

Emerging Themes

Healthy Communities/Prevention

Consumer Experience Across the Continuum

Building a Sustainable Health System

Shared Quality Metrics

Use and Sharing of Data

Enabling Technology

**Care Coordination and Patient Centered
Delivery System Alignment**

Health System Transparency and Education

Value-Based Purchasing

Vision

Working inside and outside the health care system, we will create healthier communities and transform the delivery and financing of care to enable all Iowans to live longer and healthier lives.

Prominent Themes

Healthy Communities

- Prevention is different than care coordination
- Focus on community-based prevention strategies
- Population health and social determinants
- Hierarchy of needs across health and non-health domains
- Population-specific levels of care coordination

Use and Sharing of Data

- Challenges of exchanging information real-time
- Bi-directional health information exchange at the point of service
- Restrictions in current regulations (e.g. HIV, behavioral health, and substance abuse information)
- Transparency needed for transformation at the service delivery level
 - Data or insight into tools (e.g. Value Index Score)
 - Capture Total Cost of Care (TCOC)

Roundtable

Workgroup Charges and Participation

Roundtable Workgroups

- Roundtable will lead to a set of recommendations to be presented to Governor Reynolds for a sustainable health care system in Iowa.
- Workgroups assist in the development of recommendations to build an improved and sustainable health care system in Iowa.
